ISTANBUL:

The City of Layers

The Spring / Summer 2027 collection draws inspiration from Istanbul, a city shaped by layers of history, architecture, texture, color, and everyday life.

Throughout the city, historic structures stand alongside contemporary design, geometric forms meet organic surfaces, and vibrant urban energy blends with the calm rhythm of the waterfront. These contrasts provide the foundation for the season and inspire a collection built on texture, material, pattern, and form.

The season is presented through seven capsule groups, each exploring a different layer of the city:

GALATA - Architectural lines and graphic expression.

BOSPHORUS - Movement, texture, and fluidity.

MARMARA - Relaxed summer textures and natural comfort.

STRATA - Layered surfaces, materials, and urban character.

PASSAGE - Essential connecting pieces throughout the collection.

HALIC - The changing colors and atmosphere of light.

AQUEDUCT - Geometric rhythm and architectural structure.

Together, these groups create a cohesive seasonal wardrobe developed through natural fibers, artistic surface treatments, graphic patterns, and versatile fabric combinations.

The collection features cotton, linen, hemp blends, lightweight denim, poplin, jersey, double muslin, and textured woven fabrics, offering a balanced combination of comfort, functionality, and contemporary design.

Spring / Summer 2027 brings together the many layers of Istanbul through the distinctive design language of LUUKAA.

GALATA

The Architectural Line

The **GALATA** group translates Istanbul's dynamic architectural energy and monochrome contrasts into a refined urban wardrobe. Blending the city's structural heritage with contemporary design language, the group presents a sophisticated selection for the modern cosmopolitan woman.

Graphic Pinstripe Poplin

The collection is built around a distinctive combination of graphic artwork and pinstripe poplin. Inspired by contemporary art galleries and urban visual culture, expressive brushstroke graphics are layered over classic monochrome stripes, creating a strong designer identity. The fabric composition of 78% Cotton, 19% Polyester, and 3% Elastane provides breathability, comfort, and easy care.

Premium Lightweight Denim

Complementing the graphic poplin is a lightweight denim fabric composed of 90% Cotton, 8% Linen, and 2% Elastane. Its natural comfort and breathable character make it ideal for warm-weather dressing.

The group features a variety of contemporary shapes and proportions, balancing structure and ease while maintaining a cohesive architectural aesthetic.

Color Direction:

A refined monochrome palette of White, Black, and Blue Denim creates a versatile capsule with strong merchandising and cross-selling potential.

The Symphony of Textures

Inspired by the movement and rhythm of the **BOSPHORUS**, this group explores the interaction between texture, pattern, and surface contrast. Combining knitwear and woven fabrics, **BOSPHORUS** reflects the dynamic energy of water, light, and urban life.

Striped Jersey

Available in both fine and bold stripe interpretations, this comfortable knit fabric introduces rhythm, movement, and graphic structure to the collection.

Printed Seersucker Poplin

Crafted from textured Cotton Poplin with a seersucker surface, these styles offer a distinctive dimensional quality. Water-based graphic prints add depth while preserving the fabric's lightweight summer character.

Through the combination of contrasting surfaces and textures, the group creates a rich and visually engaging summer story.

Color & Pattern Direction:

Navy stripe stories presented in both fine and bold scales, complemented by soft pastel graphic print interpretations.

MARMARA

The Fluidity of Summer

The **MARMARA** group captures the relaxed spirit of summer through tactile surfaces, timeless plaids, and effortless comfort. Inspired by the gentle rhythm of the **MARMARA** shoreline, the group combines natural textures with everyday versatility.

Cotton & Hemp Knitwear

At the heart of the group is a premium knit fabric blending 75% Cotton and 25% Hemp. The natural melange texture adds visual depth while maintaining a breathable and lightweight character ideal for summer dressing.

Double Muslin Plaids

Complementing the knitwear are woven styles crafted from 100% Cotton Double Muslin. Soft yet structured, the fabric offers comfort, movement, and an authentic natural appearance.

A variety of contemporary shapes and proportions throughout the group creates a balanced mix of comfort, versatility, and modern design.

Color & Pattern Direction:

Blue and Red melange knitwear combined with Blue, Red, and Black plaid stories presented in both fine and oversized check variations.

STRATA

Layers of Texture

Inspired by Istanbul's layered stone surfaces and architectural textures, the **STRATA** group explores the balance between simplicity, structure, and material richness. Through a thoughtful combination of natural fabrics, graphic patterns, and textured surfaces, the group reflects the depth and character of the city itself.

Cotton & Hemp Knitwear

Crafted from a blend of 75% Cotton and 25% Hemp, this lightweight knit fabric offers a breathable feel and a distinctive melange texture that enhances the group's natural character.

Striped Linen Blend

A lightweight blend of 38% Linen, 32% Cotton, and 30% Viscose combines the natural appeal of linen with the softness and fluidity of viscose. Refined black stripes introduce subtle graphic interest while maintaining a clean aesthetic.

Creative Cotton Canvas

Made from 100% Cotton, this fabric story highlights rich surface variation, ranging from clean solid grounds to expressive water-based brushstroke graphics and abstract check interpretations inspired by urban textures.

The group combines a range of contemporary forms, textures, and proportions, creating a sophisticated balance between structure and ease.

Color & Pattern Direction:

A monochromatic palette built around Black and Cream, enriched with striped effects, artistic brushstroke graphics, and abstract check patterns.
