

MICHAEL MICHAUD[®]

Inspired by Nature

SPRING 2022

GARDEN VINE

Cast bronze with a hand patina finish.
Accented with freshwater pearls.

Gardens are both a mosaic of nature and a labor of love. After much time, nurturing, and loving care, leafy vines can be found hugging garden beds of freshly blossomed flowers to welcome them to their new home. The petite, delicate buds that started the garden eventually expand and grow into beautiful, charming garden flowers.

SPRING CAPE

Cast bronze with a hand patina finish.
Accented with cast glass.

As the seasons begin to warm and nature welcomes spring, bunches of hydrangea flowers blanket the quaint roads of Cape Cod. The Cape's sandy soil provides the perfect balance for the beautiful blue and purple hues of hydrangeas that dominate the majestic landscape. The effortless beauty that surrounds Michael's spring strolls down the country lanes not only brings him peace and fills his heart with joy, but provides wonderful design inspiration.

STRAWBERRY

Cast bronze with a hand patina finish.
Accented with flame-worked glass and a 24k gold finish.
Known to be the first fruit that ripens during spring, strawberries are a tell-tale sign that warmer, sunny weather is on the horizon. This sweet fruit is the only one to feature its seeds on the outside, and is actually part of the rose family! From a fresh fruit salad to delicious strawberry shortcake, strawberries are rich in nutrients and are an integral ingredient in many delectable recipes.

WHEAT

Cast bronze with a hand patina finish.

Domesticated over 10,000 years ago, this ancient grain is the source of an abundance of delicious foods. There are six classes of wheat, each having a preferred growing season of either winter or spring. The spring varieties of wheat are typically harvested during late summer. This versatile grain is a key base ingredient for many beloved baked and cooked goods, such as bread, pasta, and pastries.

WILD VIOLET

Cast bronze with a hand patina finish.
Accented with cast glass and a 24k gold finish.

These beautiful, delicate flowers appear to pop up in the most unexpected places during early spring, gifting us with the hope of warmer days to come. Native to North America, there are over 400 known species of violets, one of the most popular being the common blue violet. In Ancient Greece, violets were beloved and even considered a symbol of the city of Athens. These flowers can adapt to a variety of environments and never fail to surprise with their sporadic, vibrant blooms.
