Initial orders are available in a minimum of 6 pairs per style/color when purchasing a minimum of 2 colors per style. We recommend referring to our list of suggested prepacks, which can help you outline your order effectively. Keep in mind that **available sizes for each item may vary**, so please check the size information listed alongside each product.

Repeats can be done across multiple styles and colors to meet 6 pair minimum. Under 6 pairs will incur a \$3 per pair service charge.

Bos. & Co. has implemented a Minimum Advertised Price Policy ("MAP Policy").

Please refer to our MAP Policy for any further questions or please contact phyllis@bosandco.com.

Please email customer service if you require a copy of our return policy. bethany@bosandco.com or shelley.d@bosandco.com, or call 1-888-498-1754.

Our Steps Towards a More Sustainable Future

Blend of rubber & 100% Natural Cork used in our soles, combined with the Sustainable & Recycled materials, allows us to use the least amount of natural resources as possible.

Cork is a natural CO2 retainer, able to capture 740 times its weight from the atmosphere. Since the entire ASPORTUGUESAS manufacturing process produces minimal emissions, our CO2 balance is negative, contributing to a much cleaner atmosphere.

The process of extracting cork is an ancestral art, done exclusively by hand. Due to the delicateness of the procedure, workers are extensively trained and no power tools or mechanical tools are used.

All work is done exclusively by local workers, from the extraction to the manufacture of the footwear. This allows for more jobs to be created and maintained in more rural areas of the country, and for cork workers to be the highest paid in the Portuguese agricultural sector.

The cork oak is the only tree whose bark is self-regenerating. This allows for it to be extracted every 9 years. Thanks to this unique feature, cork can be harvested without damaging the cork oak, allowing it to live on average up to 200 years.

In every collection we launch, we ensure that our displays, packaging and promotional materials are sustainable. Whenever possible, we use recycled or recyclable materials, with as little ink as possible.

Our Shoes have an innovative and ergonomic design. Easy fit and extremely comfortable. We are known for our unique soles made from a special blend of Cork & Natural Rubber. Our uppers are also made from a variety of Recycled & Natural renewable fibers.

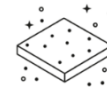

Recycled & Natural renewable fibers

Ideal insulator

Surprisingly light

Hypoallergenic

Cork & Natural Rubber Sole

MATERIALS

ECO NUBUCK

60% recycled PU and 40% PA (Polyamide) Polyamide is a polymer. It can be found naturally, like in proteins (wool, silk), or synthetically produced, such as nylon. Synthetic polyamides are commonly used in various applications due to their strength, durability, and resistance to wear and tear.

COW SUEDE RECYCLED

Made partially from the remains of materials from the traditional tanning process, preventing them from ending up in landfills. This material is made with 52% recycled leather fibres; 10% PU (Polyurethane); 38% PL (Polyester).

ASPORTUGUESAS - REAL LEATHER INTRODUCTION

At ASPORTUGUESAS, sustainability has never been about a single material. It's about making conscious choices across the entire product. With SS27, we are expanding our material universe to include responsibly sourced leather, while staying firmly grounded in what defines us: cork, durability, and thoughtful design.

Our story has always been rooted in cork. A uniquely Portuguese, renewable material that defines our identity and innovation.

Introducing leather allows us to expand design, comfort, and durability, while staying true to our material-conscious approach.

Sustainability is not defined by a single material label; it's about the overall lifecycle and impact of the product.

Durability = sustainability

A truly sustainable product is one that stays with you for years, not seasons.

We selected partners that meet the highest environmental and chemical safety standards in the industry - LWG Gold certification & ZDHC Chemical Management practices.

Soles made from a unique blend of cork and rubber.

Our Flip Flops are made from a unique blend of Cork & Natural Rubber. They are very resistant and surprisingly light. Cork is an ideal insulator with a low conductivity to heat, sound, and vibration. In addition, cork does not absorb dust, making it very hypoallergenic and easy to clean, preventing skin irritations when in contact with the soles.

We are proud to be the world's first cork flip-flops brand in the world. Our cork & natural rubber soles combined with our extremely soft natural rubber straps, offer a unique walking experience.

ECOSYSTEM

COLLECTION

This collection explores three of the planet's most vital ecosystems: **Ocean**, **Rainforest**, and **Arctic** – translating their beauty and fragility into wearable design.

Each print is not just visual.

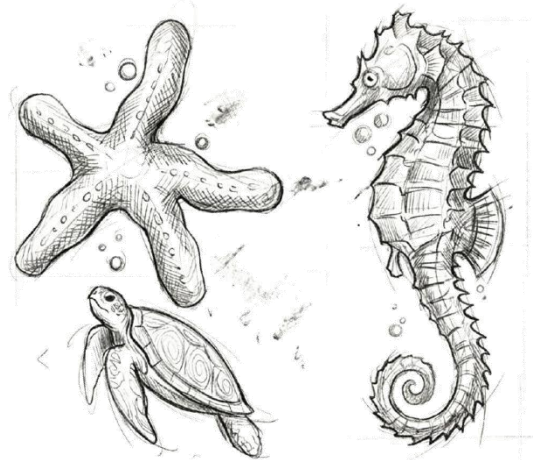

It is a story, a message, and a call to awareness. The goal is not just to show prints, but to make buyers *feel* why these products matter and why they will sell.

OCEAN - "OCEAN GUARDIANS"

Protecting life beneath the surface

The ocean is the foundation of life on Earth, regulating climate, producing oxygen, and supporting an extraordinary diversity of species.

"Ocean Guardians" celebrates marine life as protectors of this fragile balance. From the graceful seahorse to the resilient turtle, each element represents the beauty and importance of preserving our oceans.

Soles made from a unique blend of cork and rubber.

TROPICAL RAINFOREST - "NATURE'S HEARTBEAT"

Where life begins and breathes.

Rainforests are the most vibrant ecosystems on Earth, home to over half of the planet's species and essential for regulating the global climate.

"Nature's Heartbeat" captures the energy, rhythm, and richness of this living world.

This is not just a collection of prints.
It's a collection of ecosystems, a call for awareness and a reminder that every step matters

PLEASE NOTE

To: All Bos. & Co. Customers

Ref: RETURN POLICY

We at Bos. & Co. believe that our priority is to deliver product to our customers that is of the highest in quality. To maintain this priority, we have a 6 month no hassle return policy in place from the date of delivery to our retailer for manufacturer's defective product only. To maintain this standard, we ask that the following procedures be followed:

Customers must request an R.A. # via email, fax, or phone with the below details to the attention of your Customer Service representative, so we can investigate your request.

- 1) Please advise if you require a replacement pair to be sent, if available.
- 2) Photos of the issue at hand.
- 3) Copy of the Customer Receipt, if applicable
- 4) Reason for requesting the RA
- 5) Product details including the **Style, Color, Material and Size.**

Upon receipt of the above requirements, we will review this issue and get back to you right away.

Upon receipt of an R.A. # and return form, the customer must return the merchandise to the address stated on the form via Post, ground, pre-paid unless otherwise agreed to at the time the R.A. # was issued and within 10 days.

If the customer fails to get an R.A.#, postage will not be credited.

If merchandise is returned to Bos. & Co. collect, the merchandise will be refused at the door or be subject to a restock fee of 10.00/pair as well as no reimbursement of shipping costs.

Credit for the merchandise and postage will be issued when the merchandise has been returned and inspected by our Quality Control Manager. Credit note will be issued to the customer's account for merchandise only.

For repairs that can be done at the store level, Bos. & Co. will reimburse for the repair if that is satisfactory with the customer. A repair invoice indicating the repair, date and cost of repair must be forwarded to customer service for credit.

All merchandise must be inspected, and any claim must be submitted within 14 days upon receipt of merchandise. Otherwise claims will not be accepted.

All merchandise being returned must have all sales labels removed or will be subject to a handling fee of \$10.00/return and any shoe/boot box received in unusable form will be subject to \$5.00/box replacement fee.

The retailer will be responsible for shipping costs of all merchandise being returned without a manufacturer's defect as well as be subject to a \$10.00/pair restocking fee.

If you have any questions regarding our return policy, please do not hesitate to contact customer service.
